

## Abstract of the Invention

### Title

#### **TRIGGER TO ACTIVATE SUPERCOOLED AQUEOUS SALT SOLUTION FOR USE IN A HEAT PACK**

5

A trigger to activate a supercooled aqueous salt solution wherein the solution is encased in a flexible container to form a heat pack, the trigger made of dry or partially dry particles adhering to a support so that when the trigger is manipulated, allowing the dry or partially dry particles to be released and contact the supercooled salt solution, crystallization is initiated and heat is released
